Re: Reference - Underwater Solutions

As Manager of Water Operations at the Cambridge Water Department (CWD) I have had many occasions to employ Underwater Solutions. They have performed both emergency and scheduled contracted maintenance work for the CWD. This has included inspection and maintenance of active (in use) water storage facilities as well as inspection and repair of various intake structures.

Underwater Solutions' work for the CWD has always been satisfactory. When we have had emergency need of their diving services, they have always been very responsive. They conduct their work in a safe manner and deliver clear and concise reports of their work.

If you have any question, please call me at 617-349-4773.
