February 7, 2000

To Whom It May Concern,

I have had the pleasure over several years of having *Underwater Solutions, Inc.* (Bill Cornish) work for me. Whether it was performing a potable water tank inspection or its cleaning, every aspect of the job was accomplished with the utmost care and professionalism. His photographic documentation and written descriptions have been accurate and revealing. Truly, his pictures are worth a thousand words. His dive team has always been very conscientious about all aspects of the job and I would recommend his service to anyone.

If I can be of any further assistance, please do not hesitate to call.

Sincerely,

A handwritten signature in cursive script that reads "Gardiner B. Reynolds III".

Gardiner B. Reynolds III

Water Quality and Production Supervisor
