**Subject:** Work at Greenville, NH

---

Good afternoon,

I just wanted to let you know that the work performed on August 20th out in Greenville, NH was exceptional. I'm very impressed with the photos taken and the report that was submitted to us. I will not hesitate to recommend your Company to other projects when the need arises.

I work for Woodard & Curran and we operate and Maintain the Town of Greenville, NH's water and wastewater plants. As a Company we manage over 45 water and wastewater facilities in New England alone. I personally oversee 9.

Nice work!
